

# Data Protection Policy

---

## Introduction and Scope

This policy outlines Cumberland Quaker Area Meeting (CQAM)'s commitment to data protection and compliance with the UK Data Protection Act. The purpose of this policy is to ensure that all personal data held by the charity is processed lawfully, fairly, and transparently, and that the rights of data subjects are protected. This policy applies to all individuals working on behalf of CQAM, including trustees, staff, and volunteers.

## Data Protection Lead

CQAM will appoint a Data Protection Lead who will be responsible for overseeing data protection and leading on any incident investigation and reporting. The Data Protection Lead will also ensure that all staff and volunteers are provided with any induction, on the job or other training and made aware of their data protection responsibilities.

## Data Protection

Data protection is the practice of safeguarding personal information by applying data protection principles and complying with the Data Protection Act. The Data Protection Act is a UK law that regulates the processing of personal data. The UK Information Commissioner's Office (ICO) provides guidelines on data protection that CQAM will follow.

**UK GDPR:** The UK General Data Protection Regulation, which outlines the rules for processing personal data in the UK.

**Data Processor:** An individual or organisation that processes personal data on behalf of a data controller.

**Data Controller:** An individual or organisation that determines how and why personal data is processed.

**Data Subject:** An individual whose personal data is being processed.

**Processing:** Any operation performed on personal data, including collection, storage, use, and disclosure.

**Personal Data:** Any information that can identify a living individual, such as name, address, or email address.

**Sensitive Personal Data:** Personal data that requires extra protection, such as health information or ethnic origin.

**Direct Marketing:** Any communication aimed at promoting a product or service directly to an individual.

**PECR:** The Privacy and Electronic Communications Regulations, which govern electronic direct marketing.

**Valid Consent:** Consent given freely, specifically, and informed, which can be withdrawn at any time.

**Legitimate Business Purpose:** A lawful reason for processing personal data that is necessary for the legitimate interests of the data controller or a third party.

## Data protection principles

Data is:

- **Processed lawfully, fairly and in a transparent manner.**
  - There are several grounds on which data may be collected, including consent.
  - We are clear that our collection of data is legitimate and we have obtained consent to hold an individual's data, where appropriate.
  - We are open and honest about how and why we collect data and individuals have a right to access their data.
- **Collected for specified, explicit and legitimate purposes and not used for any other purpose.**
  - We are clear on what data we will collect and the purpose for which it will be used.
  - And only collect data that we need.
  - When data is collected for a specific purpose, it may not be used for any other purpose, without the consent of the person whose data it is.
- **Adequate, relevant and limited to what is necessary.**
  - We collect all the data we need to get the job done.
  - And none that we don't need.
- **Accurate and, where necessary, kept up to date.**
  - We ensure that what we collect is accurate and have processes and/or checks to ensure that data which needs to be kept up-to-date is, such as beneficiary, staff or volunteer records.

- We correct any mistakes promptly.
- **Kept for no longer than is necessary.** We understand what data we need to retain, for how long and why
  - That includes both hard copy and electronic data.
  - Some data must be kept for specific periods of time (eg accounting, H&SW).
  - We have some form of archive/review policy/process that ensures data no longer needed is destroyed.
- **Processed to ensure** appropriate security, not only to protect against unlawful use, but also loss or damage.
  - **Data is held securely**, so that it can only be accessed by those who need to do so. For example, paper documents are locked away, access to online folders in shared drives is restricted to those who need it, IT systems are password protected, and/or sensitive documents that may be shared (eg payroll) are password protected.
  - **Data is kept safe.** Our IT systems have adequate anti-virus and firewall protection that's up-to-date. Staff understand what they must and must not do to safeguard against cyber-attack, and that passwords must be strong and not written down or shared.
  - **Data is recoverable.** We have adequate data back-up and disaster recovery processes.

## Individual Rights

We recognise that individuals' rights include the right to be informed, of access, to rectification, erasure, restrict processing, data portability and to object.

## **Use of Imagery/Video**

All imagery is protected by copyright and cannot be used without the consent of the owner, usually the person who took the image. You may also need consent from the individuals in images of individuals and small groups, which may well fall within the Data Protection Act. However, there is some ambiguity, so err on the side of caution and obtain consent wherever this is reasonably possible. Particular care is to be taken when using images of children or other vulnerable people.

Here are some questions to consider when using imagery:

- For what purpose was the original image taken? If it was for one purpose, such as personal use, it cannot be used for another without the consent of the individuals concerned
- Is the image sensitive personal data? If it is, do you have the individual's consent?
- For small groups and individuals, has an image consent form been used?
- When using images of children, or people who may not be competent, do you have valid consent?
- When using images of children or other vulnerable people, are you confident your use of the image will not place them at risk? Particularly, if it is to be used publicly, such as in the media or on the web.
- When photographing large groups, have the individuals been given a chance to opt out of the photograph?
- Has the person/people in the image been told how the image will be used?
- Are you using the image according to how the person/people were told it would be used?

## **Data Breach**

A breach is more than only losing personal data. It is a breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to, personal data.

We will investigate the circumstances of any loss or breach, to identify if any action needs to be taken. Action might include changes in procedures, where this will help to prevent a recurrence, or disciplinary or other action in the event of negligence.

We will notify the ICO of a breach within 72 hours if it is likely to result in a risk to the rights and freedoms of individuals. If unaddressed such a breach is likely to have a significant detrimental effect on individuals. For example:

- Result in discrimination.
- Damage to reputation.
- Financial loss.
- Loss of confidentiality or any other significant economic or social disadvantage.

## **Fundraising**

We will ensure that our fundraising complies with the Data Protection Act and ICO guidelines and also the Fundraising Regulator guidelines including, if applicable, direct marketing and PECR. We will respect the privacy and contact preferences of our donors.

# Fundraising Preference Service

We will respect the privacy and contact preferences of our donors. We will respond promptly to requests to cease contacts or complaints and act to address their causes.

# Artificial Intelligence

We have adopted and comply with the [Charity AI Ethics & Governance Framework](#) and ICO AI guidance.

# Version Control - Approval and Review
